TV Worldwide Selected to Webcast Solar Power 2007 Conference, September 25-27, 2007, Live From Long Beach, CA
Solar Electric Power Association (SEPA) and Solar Energy Industries Association (SEIA) Team to Offer Free Webcast Sponsored by Fat Spaniel Technologies at www.TVWorldwide.com

CHANTILLY, VA--(Marketwire - September 25, 2007) - TV Worldwide, the first web-based global Internet TV network, announced that it had been selected to webcast the Solar Power 2007 Conference, September 25-27, live from Long Beach, CA with premier sponsorship by Fat Spaniel Technologies. The free interactive webcast will include interviews with industry leaders attending the show and highlight the latest products, services, issues and news concerning the solar power industry. Featured companies will also include Sharp, Solar Monkey and Schuco, among many others.

The Solar Power Conference and Expo is the largest business-to-business solar event held in the United States. Organized by the Solar Electric Power Association (SEPA) and the Solar Energy Industries Association (SEIA), this event has been growing rapidly each year. More than 10,000 people are expected to attend Solar Power 2007, and more than 210 companies will exhibit.

"We're very pleased to facilitate national webcast participation again for this year's Solar Power Conference and Expo and we thank Fat Spaniel Technologies and other participants for their visionary support," commented Dave Gardy, Chairman and CEO of TV Worldwide. "This event is the preeminent forum for solar power issues and delivers highly valuable information to the business community."

"By watching our webcast, people around the world can gain significant knowledge and insight about the solar industry and US solar markets without leaving their own desk," said Julia Judd Hamm, Executive Director of the Solar Electric Power Association and Chairperson of Solar Power 2007. "Each morning's plenary session, along with footage and interviews from the show floor, will be broadcast free over the Internet, featuring perspectives from business moguls like Ted Turner, Ray Lane (Kleiner Perkins Caufield & Byers) and Charles Zimmerman (Wal-Mart), and CEOs from six of the largest and fastest growing solar manufacturers in the world."

The event will be archived for viewing at www.SolarPowerConference.com and www.TVWorldwide.com. Participants should have the free Windows Media Player installed prior to the event and should log on by 11:00 AM PT on Tuesday, September 25 for the live webcast. The webcast will run from 11 AM - 3 PM PT on Tuesday and Wednesday and 11 AM - 1:30 PM PT on Thursday.

About SEPA

The Solar Electric Power Association is a nonprofit organization with 250 utility, electric service provider, manufacturer, installer, government, and research members. SEPA's mission is to facilitate solutions for the use and integration of solar electric power by utilities, electric service providers, and their customers. For more information, visit www.solarelectricpower.org.

About SEIA

SEIA is the national trade association of solar energy manufacturers, dealers, distributors, contractors, installers, architects, consultants and marketers. Established in 1975, SEIA works to expand the use of solar technologies in the global marketplace. For more information, visit www.seia.org.

About Fat Spaniel Technologies

Fat Spaniel Technologies was founded in 2003 to make renewable energy more visible, accessible and financially viable. Today, Fat Spaniel is the leading provider of critical information services for the renewable energy industry. Fat Spaniel provides hosted data monitoring, management and control services that OEMs, installers, and distributed utilities can use to optimize performance and ensure investment returns for all types of renewable energy systems. For more information, visit www.fatspaniel.com.

About TV Worldwide

As a leading global Internet TV network and streaming media company, TV Worldwide (www.tvworldwide.com) is developing a network of video channels that is an affiliation of community-based Internet television stations, each underwritten by a strategic partner, "aimcasting(SM)" to targeted demographic audiences worldwide. TV Worldwide works with strategic partners to develop the latest in live and archived state-of-the art video streaming content applications. TVWorldwide.com was recently named one of the streaming video industry's "Hottest Streaming Companies" by Streaming Magazine, www.streamingmagazine.com, and CEO Dave Gardy was honored by the magazine as one of the 50 Most Influential People in Streaming Media. Mr. Gardy also serves as President of the International Webcasting Association.
